6—7 NOVEMBER
Museum für Naturkunde

Berlin Science Week Campus at Museum für Naturkunde is the central hub of Science Week.

For two days, the most innovative and visionary institutions from both Berlin and the world share their scientific breakthroughs with you.

BERLIN SCIENCE WEEK 1–10 NOV 2019

WELCOME!

The 4th edition of Berlin Science Week is back! We are happy to present more than 130 events between 1—10 November taking place all across the city.

From exploring the Arctic to tackling malaria with modern research, living with robots to the future of urban nutrition, from neuroscience of desire to cooking for microbiome, or the relationship between social inequality and populism – there is something for everyone.

For the first time, Berlin Science Week Campus at Museum für Naturkunde is the central hub of Berlin Science Week. On 6/7 November, the most innovative and visionary institutions from both Berlin and the world share their scientific breakthroughs with you.

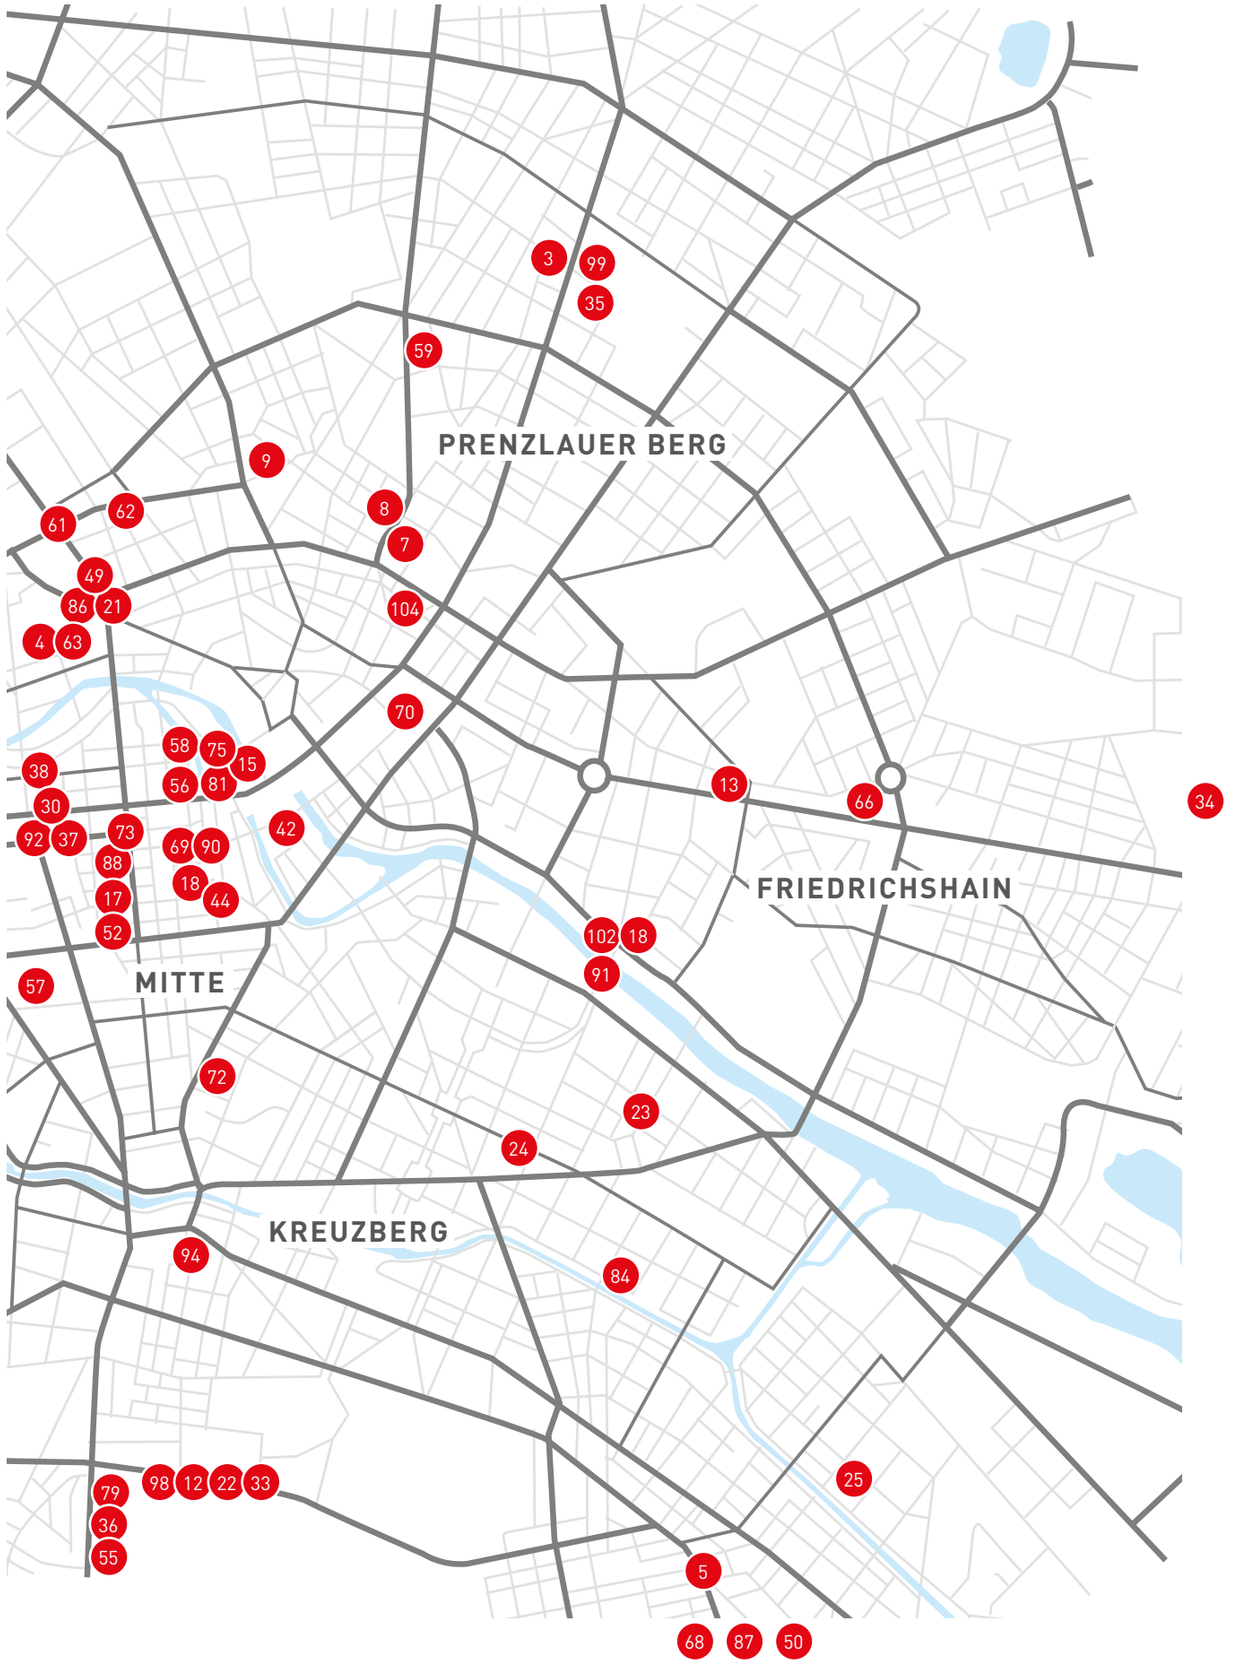

Speak with the world's leading scientists, academics, activists, entrepreneurs and politicians, discuss approaches to tackle the world's grand challenges and immerse yourself in lectures, workshops and festivals at the intersection of science, art and society. Check out the programme and make Berlin Science Week 2019 your own.

Follow the conversation at #BerlinSciWeek19.
